Senior SharePoint/.NET Engineer & Team Lead | 16+ Years of Experience

Professional Summary

Accomplished software engineer with over 16 years of experience, including 5+ years focused on designing, developing, and deploying responsive and scalable web applications. Proven expertise in building modern user interfaces using React, SPFx, and SharePoint Online, and customizing business solutions with the Power Platform. A collaborative team player skilled in working with stakeholders and UI/UX designers to translate requirements into clean, intuitive, and high-performing applications. Strong background in full project lifecycle delivery, from requirements gathering to deployment and support.

Professional Experience

SharePoint Consultant
SilverTech Oman
Sep2025 - Present

- **senior Web Application & SharePoint Developer**

BapCo Upstream (Contractual, Onsite - Bahrain)
July 2024 - Aug 2025

- Design and develop scalable web solutions and customization for SharePoint Online using SPFx, React, and Fluent UI
- Collaborate with stakeholders to gather requirements and implement clean, intuitive user interfaces for departmental portals and business applications
- Build and integrate Power Platform solutions (Power Apps, Power Automate) to automate business processes and extend SharePoint functionality
- Ensure compliance with security standards and data governance policies across all site collections and custom applications
- Provide technical leadership in migration and integration projects, leveraging REST APIs to connect SharePoint with other M365 services (Teams, OneDrive).

Team Lead SharePoint
OPAZ (Contractual-Onsite - Oman)
Feb 2022 - June 2024

- Led the development and modernization of web applications and departmental portals, converting legacy InfoPath forms to modern SPFx solutions

- Architected and developed a public-facing **eservices portal** using **ASP.NET Core MVC** and **CSOM**, ensuring responsiveness and cross-browser compatibility

SharePoint Consultant

Advancy Solutions Qatar (Remote-Contractual)
July 2020 - Jan 2022

- Executed content migration from SharePoint 2010 to SharePoint Online using AvePoint.
- Implemented modern UI designs on SharePoint Online using SPFX extensions.
- Automated business processes by converting classic workflows to Power Automate.
- Designed and built custom approval applications to streamline operations.

Sr. SharePoint Developer
Systems Limited
Mar 2018 - Jun 2020

- Actively participated in Agile/Scrum ceremonies and system analysis for project delivery.
- Developed and deployed custom web parts, team sites, workflows, and InfoPath forms.
- Served as SharePoint portal administrator for Al-Faisal University (KSA).
- Created complex Nintex workflows and forms with approval processes and location-based calculations.
